

INTENTIONAL HOURLY ROUNDING

Does your patient...

Pain

- have any pain or discomfort at rest or on movement?
- ✓ *provide analgesic/comfort measures*

Peri-needs

- need to use the toilet?
- need briefs/pads changed?

Position

- need to be turned, repositioned, or mobilized?
- ✓ *assess skin, provide care as needed*

Possessions

- have easy access to call bell, water, eye glasses, hearing aids, phone, tissue, and mobility aid?

Ask - "Do you need anything before I go?"

Communicate - "I, or someone from the team, will be back in about an hour to check on you"

If patient is sleeping, continue to assess but do not wake unless clinically indicated or previously arranged.
